Computer Science graduate with skills in C, JavaScript, and Embedded Systems. Passionate about solving problems and learning, with hands-on project experience and a drive to contribute to innovative teams.

Education

Bachelor of Technology, 2024
Faculty of Computers and information, Menoufia University

Projects

- Giving Circle Used technologies: Reactjs, Nodejs, MongoDB
Centralized donation platform designed to reduce waste and help those in need, it bridges donors and beneficiaries through a user-friendly website and a company dashboard.
- E-Commerce Website Used technologies: JavaScript, ,HTML , CSS, MongoDB
Developed a fully functional e-commerce website featuring user authentication, product browsing, shopping cart integration, and secure checkout. Implemented responsive design and dynamic functionalities. Focused on optimizing user experience and ensuring seamless performance across devices

Core skills

- Technical Skills
 - JavaScript - ReactJS
 - MongoDB - HTML
 - C++ - C
- Soft Skills
Leading my graduation project team strengthened my **leadership**, **team management**, and **time management** skills. I coordinated tasks, ensured **clear communication**, and balanced deadlines with academic commitments, fostering **problem-solving** and **adaptability** throughout the process devices

Internship And Courses

- Embedded Systems intern [FuzeTek]
 - C Programming Language
 - Computer Systems Architecture
 - Embedded Systems Concepts and Microcontroller
- ReactJS Course [Mosh Academy]
 - Build front-end apps with React and TypeScript
 - Implement infinite scrolling
 - Fetch and update data using React Query
